

MAGNUSTOUCH XV-2 SERIES

fully loaded

If a picture is worth a thousand words, then our larger displays are worth many more. Introducing XV-2, the most powerful and easy-to-use 17" touchscreen terminal. It is the most powerful system available in the market, running Intel P4, upto 3GHz, with a blazing 100/1G BaseT network built-in. In addition, the XV-2 offers affordable RAID-1 capability for automatic data redundancy and protection. Use it to increase sales, improve customer service, and create customer loyalty.
